*Caller ID, POP ID, Call Block and Visual Message Waiting. Features only work if you subscribe to the service provided by your telephone company. There is usually a fee for this Caller ID Type 2 service. is currently not available in New Zealand. Please check with your telephone company. **Also available in specially packaged models with one or more additional handsets. Specifications subject to change without notice. See Uniden website for any changes. Please note: Not all models and colours available in both Australia and New Zealand. The Repeater Station (XDECT R006) must be well mounted to splashproof. Splashproof is defined as meeting the world standard JISA level. Being defined as having no harmful influence by receiving a splash of water from any direction. Please note the Cordless Phone Handset is NOT splashproof. Waterproof Handset (XDECT 7005WPI-JIS7) is being defined as having no ingress of water when immersed at 1 metre for 30 minutes. The Charge Cradle and AC Adaptor are NOT waterproof for the XDECT 7005WP model.
